

Vallepu Suseela

ASPIRING CYBERSECURITY ANALYST

suseelavallepu36@gmail.com | +91 93909 75091

GitHub portfolio | LinkedIn: vallepu-suseela-41a542267

CEH-certified aspiring cybersecurity analyst with a foundation in threat detection, incident response and log analysis. Hands-on exposure to security tools and SOC concepts, including suspicious-activity identification and incident triage. Brings analytical thinking and clear documentation skills developed through professional content writing.

■ TECHNICAL SKILLS

Security tools

Wireshark, Nessus, Nmap, Metasploit, Burp Suite, Kali Linux

Security operations

Threat detection, incident response, log analysis, vulnerability assessment

Networking

TCP/IP, DNS, firewalls, VPN, IDS/IPS, email security

Operating systems

Windows Server; Linux (Ubuntu, Kali)

Other skills

SIEM basics; risk assessment; report writing

■ CERTIFICATIONS & TRAINING

Certified Ethical Hacker (CEH)

EC-Council | 2025

NASSCOM Cybersecurity Training

SRM University

Dec 2025 - Present

Cybersecurity Training

Hacker School | 2025

Networking Course

Spypro Security Solutions | 2022

■ EDUCATION

B.Sc. in Computers | 2022

Krishna University

Intermediate | 2019

Narayana Junior College

SSC | 2017

Sri Chaitanya School

■ CYBERSECURITY PROJECTS

SOC Log Analysis & Alert Triage

Lab simulation

- Simulated security monitoring using log data and SIEM concepts to detect anomalies, including brute-force login attempts.
- Triageed and classified alerts, and prepared basic incident documentation.

Phishing Email Analysis

- Analyzed email headers and used OSINT techniques to identify spoofed domains, malicious links and attack indicators.
- Documented indicators of compromise (IOCs) from phishing emails.

■ PROFESSIONAL EXPERIENCE

Freelance Cybersecurity Trainer

2025 - Present

- Deliver foundational cybersecurity training to students and beginners.
- Develop structured learning modules covering networking, threat concepts and security fundamentals.
- Demonstrate security tools through practical, real-world scenarios.
- Explain complex technical concepts in clear, structured language.

Freelance Content Writer

2023 - 2024

- Produced high-quality, research-based and SEO-optimized content for multiple clients within strict deadlines.
- Strengthened analytical thinking, data interpretation and structured reporting.

Content Writing Intern

2022 - 2023

Kick Start Digitals

- Researched verified sources to develop structured reports and concise, well-organized content.
- Improved technical documentation and clarity in written communication.

■ ADDITIONAL KNOWLEDGE

Understanding of SIEM workflows and the alert lifecycle; familiarity with the MITRE ATT&CK framework; awareness of OWASP Top 10 and common cyber threats.
